'Bud' Winter was the architect of 'Speed City' which propelled San Jose State to the pinnacle of track and field during the mid-1900s. Coach Winter created a legacy not only through his ability to coach, but also through his ability to mentor other coaching hopefuls and promote the sport of track and field. In all, he would coach 102 All Americans, 27 Olympians, and 49 NCAA and 37 world-record holders throughout his career as the Spartans' coach, which took place between 1940 and 1970, though much of Bud's legacy remains the dozens of coaches in all ranks which he mentored.
